Please consider these guidelines when creating your artwork.
This will help us in delivering you the quickest PDF proof.

A clear die-line should be visible at the desired size. Please designate this as a spot ink called "Cutter"

Provide a minimum of 1.5mm artwork bleed past the cutter edge

BERKSHIRE LABELS

ASTERIA

2.904 mm · 25.08mm · 1.848 mm · 10mm

0 000000 000000 >

29.832mm

Keep Important text/artwork 1.5mmfrom the cutter edge

Barcodes should be provided at this size or above where possible. We recommend a black on white colour combination for best results. We can generate a barcode for you to place in your artwork,please provide the number and type of barcode required i.e. EAN13, UPC-A etc.

Please provide your artwork in:

- **PDF format**
- **CMYK colour mode**
- **1:1 scale**

– If providing artwork with a legend / annotations please also provide a separate PDF **showing only artwork and dieline**.

– Please **apply trim box information** to the required dieline.

– For best quality results, we recommend using vector based artwork. All raster images should be a **minimum of 300dpi**, and any **bitmap tiffs should be a minimum 1200dpi**.

If you need any further assistance whilst creating your artwork, please do not hesitate to contact us on 01488 683628 or email sales@berkshirelabels.co.uk
